EDUCATION

Bachelor of Computer Applications (BCA), Calicut University — Nov 2020 - Nov 2023
Higher Secondary Education (+2), DHSE Kerala — Jun 2018 - Mar 2020

SKILLS

Programming Languages: JavaScript, HTML, CSS
Frameworks/Libraries: React.js, Node.js, Express.js, Redux, Tailwind CSS, Bootstrap
Databases: PostgreSQL, MongoDB, Firebase
Tools and Platforms: Git, GitHub, Firebase, Postman, VS Code
Other Technologies: RESTful APIs, JWT

EXPERIENCE

Backend Developer Intern — DiGi Suvidha Pvt. Ltd, Kottayam, Kerala — July 2024 - Present

- Developed and maintained server-side logic, ensuring high performance.
- Integrated RESTful APIs, enabling dynamic content management and retrieval.
- Leveraged PostgreSQL for efficient database management, optimizing queries and ensuring data integrity.

MERN Full Stack Developer Intern — Luminar Technolab, Kochi, Kerala — June 2023 - Jan 2024

- Designed and implemented web applications using React.js, improving frontend performance and user experience.
- Developed robust backend services with Node.js and Express.js, ensuring secure and scalable API endpoints.
- Managed data storage and retrieval with MongoDB, ensuring efficient and scalable data handling.

PROJECTS

Netflix Clone (MERN Stack) — Link to Project

- Developed a Netflix-like application using MongoDB, Express.js, React.js, and Node.js, integrating JWT for secure user authentication.
- Implemented API integrations for fetching and displaying trailers of movies and TV shows.
- Built a responsive and dynamic search feature, allowing users to easily find and view their preferred content.

Job Portal (MERN Stack) — Link to Project

- Created a job search and management platform using React.js, Node.js, Express.js, and MongoDB.
- Enabled users to add, view, update, and delete job listings, enhancing job application tracking.
- Implemented a user-friendly interface with responsive design, ensuring accessibility across devices.

Weather App — Link to Project

- Built a weather application using HTML, CSS, and JavaScript, providing real-time weather updates.
- Integrated third-party APIs to fetch and display accurate weather data based on user location.

CERTIFICATIONS

- JavaScript Certification for Intermediates — Sololearn, Feb 2024
- MERN Full Stack Developer Internship — Luminar Technolab, Jan 2024
